Contents of Volume 59 (2002)

Volume 59 No. 1 January 2002

E. K. IFANTIS and K. N. VLACHOU / Solution of the Semi-Infinite Toda Lattice for Unbounded Sequences 1–17

ATSUO KUNIBA, TOMOKI NAKANISHI and ZENGO TSUBOI / The Bethe Equation at $q = 0$, The Möbius Inversion Formula, and Weight Multiplicities: III. The $X_N^{(r)}$ Case 19–32

S. FOURNAIS / On the Total Magnetic Moment of Large Atoms in Strong Magnetic Fields 33–45

ALAN L. CAREY and JOUKO MICKELSSON / The Universal Gerbe, Dixmier–Douady Class, and Gauge Theory 47–60

FERNANDO FALCETO and KRZYSZTOF GAWĘDZKI / Boundary G/G Theory and Topological Poisson–Lie Sigma Model 61–79

JUAN-PABLO ORTEGA and TUDOR S. RATIU / A Symplectic Slice Theorem 81–93

Volume 59 No. 2 February 2002

KONRAD SCHMÜDGEN / Commutator Representations of Covariant Differential Calculi on Quantum Groups 95–106

D. B. FAIRLIE / The Multi-field Complex Bateman Equation 107–115

ENRIQUE G. REYES / Geometric Integrability of the Camassa–Holm Equation 117–131

PAOLO ASCHIERI and FRANCESCO BONECHI / On the Noncommutative Geometry of Twisted Spheres 133–156

TAKASHI TAKEBE / A Note on the Modified KP Hierarchy and its (Yet another) Dispersionless Limit 157–172

MYEONGJU CHAE / Existence of Multi-string Solutions of the Gauged Harmonic Map Model 173–188

Volume 59 No. 3 March 2002

JÓZSEF LŐRINCZI, ROBERT A. MINLOS and HERBERT SPOHN / Infrared Regular Representation of the Three-Dimensional Massless Nelson Model 189–198

IVAN VESELIĆ / Wegner Estimate and the Density of States of Some Indefinite Alloy-Type Schrödinger Operators 199–214

J. E. NELSON and R. F. PICKEN / Parametrization of the Moduli Space of Flat SL(2, *R*) Connections on the Torus 215–226

SERGIO ALBEVERIO, SHAO-MING FEI and PAVEL KURASOV / Point Interactions: $\mathcal{PT}$-Hermiticity and Reality of the Spectrum 227–242

G. CATTANEO and J. HAMHALTER / De Morgan Property for Effect Algebras of von Neumann Algebras 243–252

PHILIPPE MONNIER / Formal Poisson Cohomology of Quadratic Poisson Structures 253–267

PETER GILKEY, KLAUS KIRSTEN, and JEONGHYEONG PARK / Heat Content Asymptotics for Oblique Boundary Conditions 269–276

Erratum:

JÉRÔME GERMONI / On the Classification of Admissible Representations of the Virasoro Algebra (*Lett. Math. Phys.* **55** (2001), 169–177) 277
